

Here's how you can support *My New Hair* AND benefit yourself too

My new Hair is the pioneering new charity by Trevor Sorbie. It provides advice and supports a network of hairdressers who provide a wig styling service for people suffering from medical hair loss.

Linda Belcher Healthcare is delighted announce that **50% of proceeds** from **Facial Rejuvenation Massage** treatments given on **selected Thursdays every month** will be donated to the **My New Hair** charity.

Would you like to:

- feel uplifted and relaxed at the same time
- see a visible improvement in your skin tone and texture
- look and feel fabulous
- give yourself a well-deserved break
- treat someone who has supported you through a difficult time

You do ... then why not **treat yourself** or **someone you love** to a **Facial Rejuvenation Massage** (also known as Natural Face Lift Massage). Gentle rhythmic massaging motions over the face and neck gently melt away tension and stress leaving you rejuvenated and calm. The treatment concentrates on each half of the face separately so you can if you wish sit up half way through to see the difference in the side that has been treated first. Whilst it won't cure sinusitis, regular treatments will help relieve congested sinuses and tension headaches.

Visit www.lindabelcherhealthcare.co.uk for further details of this treatment and others that Linda offers. Check out her testimonials too.

Note donations from this treatment are only from appointments on selected Thursdays each month:

24 February 31 March 21 April

Treatments must be at Linda's clinic in Shoreham-by-Sea. This is bound to be popular so don't miss out – **phone Linda today** to make an appointment **07787 194337**
